**Working at MIT offers opportunities, an environment, a culture – and benefits – that just aren't found together anywhere else. If you're curious, motivated, want to be part of a unique community, and help shape the future – then take a look at this opportunity.**

TECHNICAL ASSOCIATE I, Sloan School of Management (part-time, 50%), to provide high-level support to a group of researchers conducting an ongoing experimental intervention. Will oversee the ongoing research project, handling duties that include general research project management, the creation and modification of Institutional Review Board (IRB) proposals, performing statistical analysis of data, coding qualitative data, and assisting with literature review.

The position offers an opportunity to attend Sloan departmental research seminars and those of the MIT-wide behavioral research working group, B-Lab. It would also be an excellent fit for someone with an interest in diversity research who wants to strengthen his/her research skills before applying to graduate school in social psychology, sociology, management, or a related field of behavioral science.

#### Job Requirements

**REQUIRED:** at least two years of related experience; knowledge of and experience with quantitative analysis software such as SPSS, STATA, or R; ability to synthesize, evaluate, and communicate clearly and evaluate tasks with an eye toward efficiency; and excellent organizational, interpersonal, and communication skills. Experience with experimental research in psychology or with research in a related field of behavioral science such as sociology or
